ARTIST STATEMENT

Gaëlle Hintzy-Marcel creates sculptures that explore balance, movement and human connection.

Combining very diverse materials, she brings together contrasting textures, weights, and energies to create dialogue and movement. Her work moves between figurative and abstract forms, often inspired by pathways, relationships, femininity, and resilience.

Influenced by a life lived across France, Indonesia, Russia, India, and the United States, she creates sculptures that invite interaction through touch, light, and shadow, offering a positive and personal reflection on the human experience.
