STATEMENT

Depuis plus de vingt ans je nourris ma pratique artistique au fil de mes expériences entre la France, la Russie, l'Inde et les États-Unis. Mes sculptures traduisent ma perception féminine de la vie: un dialogue entre force et sensibilité, intuition et matière. Je façonne tout moi-même, du modelage à la patine, travaillant la matière avec instinct et liberté. Accidents, imperfections et imprévus deviennent pour moi des sources d'émotion, d'énergie, et souvent... de nouveaux équilibres.
